(a)
N² of the layer (10⁻⁵ s⁻²)
1 % 0 %
29 % 1 %
1 % 28 %
FUB3
FBG3
FCF3
(b)
FUB3
change across the layer (°C)
time since the reversal over the median canonical arrest time
(c)
FCF3
time since the reversal over the median canonical arrest time
(d)
FUB3
attenuation at 0.15 m s⁻¹
time since the reversal over the median canonical arrest time
(e)
FUB3
veering (°) at 0.15 m s⁻¹
time since the reversal over the median canonical arrest time
upslope Ekman transport
downslope Ekman transport
95 % interval
unarrested Ekman layer
layer model (b, c)
fitted decay (d)
full arrest over one arrest time
within 40 h of the reversal
observed arrest time
wedge time
restoring time
median state duration
